3315 BAY SHORE ROAD

A hidden gem in Sarasota, this property is one of the most sophisticated bayfront resorts in the area with 240' on Sarasota Bay encompassing 2.5 acres of tropical grounds. Located on Bay Shore Road—a neighborhood of many exceptional residences spanning from the Ringling era to today's architecture—this estate offers a quality of design and construction superior to many other homes of similar size. Built in 1987 as a remarkable oriental palace, the home was completely redesigned by the present owners in 1993. Today, the 11,000± square-foot residence encompasses Moorish architectural style with contemporary elements. The grounds are a tropical oasis with exotic tree species hiding the mansion from street view. A tennis court, large pool and pool house allow for enjoyment of a large family or groups of friends.

Offered at \$12,875,000
